Safety Town is designed to help children recognize hazardous situations and react to them. Each session includes two weeks of instruction and fun to 3-7 year old children, determined by their age on June 18th.

Safety town is coordinated by a Director of Education, who is a certified teacher, and is assisted by other certified teachers, committed assistants and dedicated volunteers. A registered nurse is also on site. Children have "hands-on" learning while riding through the Safety Town streets along with singing safety songs, playing safe games, coloring and participating in other activities all designed around the safety message of the day.

Registration is available via our website: www.safetytownyork.org
